

## AQUAFUSE clearing

AQUAFUSE clearing solution contains salicylic acid to act as a keratolytic. Can be used with wet/dry microdermabrasion to act as target product for reducing oil and blemishes. Can be used for home care as additional support for blemish and oil reduction.

### Skin Type:

Oily, blemished

### How to use:

#### Professional Use:

Can be used with technology in exfoliation mode, or with wet/dry microdermabrasion in a layered exfoliation. Use CLEANSE for cleansing, apply AQUAFUSE foamPeel, leave on for 1-2 minutes, make first pass with wet/dry microdermabrasion. Remove with water. Spray AQUAFUSE clearing in target areas with oil and blemishes, apply second pass. Follow the bT-Ceuticals® regimen for skin type.

#### Home Use:

Spray on after cleansing in areas of oil or blemishes. Follow with bT-Ceuticals® regimen for oily skin with blemishes.
