

Skin Care for life inside and out™

ACCELERATE repairing™

ACCELERATE repairing™ is excellent as a lipid replacement product and as an emollient sealant to be applied after all hydrators or moisturizers. It contains Passiflora edulis seed oil (passion flower) and Vitamins A and E as antioxidants. It also contains ceramides (lipids which form a protective barrier) and sphingolipids (fatty acids) which are lipids that provide a restorative effect on damaged skin.

Skin Type:

Mature, dry, dehydrated skin. May also be fragile, thin, and prone to irritation. (Not for oily, blemished skin.)

How to Use:

Professional Use:

Apply 2-3 drops of ACCELERATE repairing™ on dry, dehydrated skin as the final step in a facial, prior to applying SHADE SPF 30 environmental protection.

Home Use:

Apply 2-3 drops of ACCELERATE repairing™ as final step before applying SHADE SPF 30 environmental protection.

Ingredients:

Cyclopentasiloxane, dimethicone, dimethiconol, octyldodecanol, passiflora edulis seed oil, ethylhexyl cocoate, phenyl trimethicone, tocopheryl acetate, glyceryl linoleate, glyceryl linolenate, ceramide 3, sphingolipids, retinyl palmitate.

Quick Selling Tips:

- Passiflora edulis seed oil (passion flower): rich in Vitamin A, supports barrier function, an emollient, cell protector, and antioxidant
- Sphingolipids: emollients which provide restorative effect on compromised skin barrier
- Vitamin E (tocopherol acetate): antioxidant and preservative
- Vitamin A (retinyl palmitate): increases collagen production, smoothes texture, and increases skin thickness

Ingredient Efficacy Studies: Passionflower extract, oleomarucaja
