

Skin Care for life inside and out.™

Results Oriented Technology Facials: Maximum Results, Minimum Time, and Increasing the Bottom line

Presenters: David Suzuki and Sallie Deitz

Bio-Therapeutic award winning technology is the focus of this class from start to finish. View the technologies from both theoretical and practical approaches for wet/dry micro-dermabrasion, AIR, microcurrent, and LED. Learn how to layer modalities to yield greater results, in less time. Gain insights into how technology facials can increase your income while meeting the objectives of the busy and active lives of clients today. Attendees will benefit from hearing the science behind several modalities, and the advanced ingredients that have been formulated to work with technology.

- Apply your knowledge to new technology
- Learn how to bring new services to your menu in a fast paced world with so many options available
- Watch LIVE demonstration during presentation
