

Skin Care for life inside and out.™

Express Services Lead to BIG Business: Time Valued Customized Services for Busy People (you included)!

Presenters: David Suzuki and Sallie Deitz

This class will show attendees how to use express services to attract busy clients looking for results oriented skincare, yet do not have extra time to wade through all of the options. We will discuss how to become the expert in results oriented, mini services using accent technology and hand held devices. Learn how to customize a brief, effective, informative service, which includes a home care regimen, and product knowledge all in half the time.

Attendees will leave the class with the knowledge and inspiration to set up express service menu options, which will increase interest in visit frequency, product sales, loyalists, and your bottom line.

- How to change up your menu to include results based express services
- Learn to maximize sales, two products at a time
- Watch LIVE demonstration during presentation
